DUDLEY DEAD.

The Murderer of Farmer Hughes
Lynched at Georgetown, Ky.

Several Hundred Armed Men Take
Part in the Affair.

PROMPT SURRENDER OF THE PRISONER
BY THE JAILER.

The Kendall Murderers in the Same
Prison Unchastised—Brutal Murder of
a Merchant by a Negro at Conway,
Ark.—John Baxter Kills His Wife and
Children and Then Commits Suicide—
Other Crimes.

LEXINGTON, Ky., Aug. 28.—At 2 o'clock this morning 300 armed men from Franklin County rode up to the jail in Georgetown, and demanded the keys of the jailer. They were given up and the men took Frank Dudley from his cell, and going out the Frankfort Pike road one mile, they hanged him to a locust tree. Four men performed the job—three tied Dudley's hands and legs and the fourth man climbed the tree and tied the rope to the limb. After the body swung loose the mob fired several hundred shots into it and departed. The body was cut down at 7 o'clock this morning. Dudley killed a wealthy young farmer named Frank Hughes last Monday.

Squire Milton Kendall and his four sons, who murdered John Jarvis and J. A. Montgomery in Georgetown yesterday, were nearly scared to death when the mob came to the jail. Burtt Jarvis, who was so badly wounded in yesterday's shooting by the Kendalls, rested well last night, and he has some chance to recover.

LOTTERY MEN IN TROUBLE.
New Orleans, La., Aug. 28.—Post-Office Inspector Marquard on Wednesday swore out warrants against John A. Morris, President; Paul Conrad and other directors and chief manager of the Louisiana Lottery Co., to answer the charge of violating the lottery law, preferred in Austin, Tex., a few days ago. The lottery counsel will contest the right to exact bond for their appearance in the trial.

FLED TO CUBA.
DENVER, Colo., Aug. 28.—George E. Hay, a fugitive from justice, author of the most notorious crime in the history of the city, is known to be in Cuba. He is short about \$10,000, and the report of Mayor Rogers' investigating committee, two weeks ago, is what made Raymond fly the country. He is now in Havana, where he is staying at the Hotel Grand, and was indicted before the grand jury. He was a member of the late crooked Republican administration.

OFFICERS DEFIED BY AN OUTLAW.
PARIS, Tenn., Aug. 28.—Ollie Matt Allen, recently defied Sheriff McFetters and posse of 400, and was above all, forced his way into an ax he wanted.

Allen, who is only a small miscreant, who did not feel justified in killing him, it has been learned since, however, that he is wanted Nashville on more serious charges.

SMITH, THE OUTLAW.
MONTGOMERY, Ala., Aug. 28.—Bob Sims, the most notorious outlaw in the state, is known to be in Cuba. He is short about \$10,000, and the report of Mayor Rogers' investigating committee, two weeks ago, is what made Raymond fly the country. He is now in Havana, where he is staying at the Hotel Grand, and was indicted before the grand jury. He was a member of the late crooked Republican administration.

CRIMINAL NEWS IN BRIEF.
After blowing open Christo Shoemaker's safe at New Baden, Ill., Tuesday night, the robber got away without having secured the contents.

At Rome, Ga., yesterday five women graped with Constable Davenport, who was just leaped from the train near Douglass. They held on until Woods escaped, and the Constable in the midnight train home with his prisoner. Woods was wanted on a bench warrant.

BOBBIE BATTENHEIM.

SHOCKING DOMESTIC TRAGEDY.
John BAXTER MURDERS HIS WIFE AND CHILDREN.

New York, Aug. 28.—Fugitives in the four-story tenement house, No. 321 East One Hundred and Sixth street, last night heard pistol shots in the apartment occupied by a family just returned from a vacation in Canada, and, however, sought to learn what the shooting meant until 10 o'clock in the morning, when it was noticed that none of the Baxters had yet been seen. Neighbors knocked on their door, but there was no answer, and the policemen were told that there was something wrong. The policemen went upstairs, forced in the door and there found John Baxter, a pallid, 30-year-old; his wife, Mary, aged 28, and their three children, Katie, 6 years old, and John, 4 years old, all lying dead, with bullet-holes in their heads. Beside the body of the husband and father lay the body of his wife, who had been shot with four cartridges discharged. It is supposed he killed his wife and children and then shot himself. On the table was a letter written by him to his mother, in which he told of his intention to kill his family and himself.

A COURAGEOUS DEED.

THE KILLING OF IKE FRAENKEL BY A NEGRO WHO ESCAPE.

CONWAY, Ark., Aug. 28.—A mulatto boy named Charlie Battenheim shot and killed Ike Fraenkel about 11 o'clock last night. It appears that the deceased and two other young men were passing down Harkard street, when in front of St. John's Church, the ball entered the back Fraenkel turned and the negro fired a second shot, which entered the breast. Fraenkel lived a short time after he was shot. Mulligan, the coroner, said that the cause of death was not known except that some time ago Ike Fraenkel got after Mulligan for his meanness, since which, it is said, Mulligan threatened his life. Fraenkel was head salaried of the firm of Mulligan & J. Fraenkel & Co. of this place, and brother of Joseph, the head of the firm. There was not a young man in the town who stood higher in the community than Ike Fraenkel. After shooting the negro made his escape. Sheriff Wilson and posse with bloodhounds are after him.

JOKED AND LAUGHED.

BAILEY, A YOUTHFUL MURDERER, REINATED NEAR LILLE, FRANCE.

PARIS, Aug. 28.—A youth named Baile, who had been convicted of committing several atrocious crimes, was beaten up by a crowd, near Lille, in the Department Du Nord, this morning. The execution of this young

criminal is remarkable from the fact that he exhibited the most callous disregard and seemed to have the most utter disregard for death. At 5:30, when Baile was awakened, he joked and laughed with the executioners, priest, and prison attendants, and addressed them and those who might naturally be supposed to be somewhat hardened and accustomed to unnatural death scenes. The young rascal positively refused to listen to the priest's exhortations and addressed the executioners as though they were the young criminal, threw him under the knife, and a second later, his head rolled into the basket of sawdust waiting to receive it.

BRUTAL TREATMENT OF A PRISONER.

MORRILY, Mo., Aug. 28.—Wm. Foyer, who was arrested last February on a technical charge, was treated like a common felon in the horrible story of his treatment in the Denver jail. He was placed there Aug. 10, among the worst class of prisoners. They soon learned that he had money, and the officers called him the "tangoree connoisseur," before which Foyer was brought and for some trivial offense was fined \$4, to be spent in tobacco. He refused to pay and was assessed fifty lashes. He still refused and was sent to the hospital, where he remained for four days. He threatens to bring suit against Arapahoe County.

INDICTED FOR MURDER.

DALTON, Ga., Aug. 28.—Nine leading citizens of Murray County have been indicted for complicity in the谋杀 of Mrs. David Jones. The attorney, Harry Fischer, George Mullins, Barlow Mullins, Wm. Collins, James Branleite, Lem Branleite, Col. Welch and two others. Twelve disguised men went to the door and found him dead in the presence of his wife and children, under pretense that he had maltreated them.

A SCENE OF TERRIBLE CONFUSION ON BOARD THE ILL-FATED STEAMER—RESCUE OF SOME OF THE CREW AND THE PASSENGERS BY THE OTHER VESSEL, THE EASYB.—THE STATESVILLE DISASTER.—A STEAMER ADRIATIC STRANDED ON THE REEFS—CASUALTIES.

LONDON, Aug. 28.—A dispatch from Melbourne states that a collision occurred at 1:30 this morning inside Port Philip Heads, between the steamers Gambier and Easy. The Gambier was bound from Sydney, New South Wales, for Melbourne, and was just clearing the heads when she met the Easy bound out. It was impossible for the vessels to clear each other, and the Easy struck the Gambier amidships, crushing her to such an extent that when she backed away the water poured into the hold of the Gambier in torrents. A scene of terrible confusion and excitement followed the shock of the collision. Most of the passengers were in their berths when the accident happened.

A FAIR.

ST. PAUL, Aug. 28.—A dispatch from Graham, N. D., says that a fair going north to the fair grounds at Bismarck, N. D., was put to sea in a life-boat with a crew provisioned for a four-days' cruise, but by 8 o'clock p. m. they rowed into the inlet. The officers went to the longboat office and wired for a tugboat to take the men ashore. About 10 a.m. a tugboat arrived and took the men ashore at New York. There are provisions enough aboard the Old Dominion to last for twenty-four hours. It is expected that a tug boat will be sent to her tomorrow from New York.

CAPTURED BY REEDS—SAVAGE.

ATLANTIC CITY, N. J., Aug. 28.—The Old Dominion Steamship Co.'s steamer Old Dominion, is drifting in a helpless condition about 10 miles off the coast of New Jersey. About 4:30 a.m. Wednesday her port shaft broke, disabling her engine and leaving her at the mercy of wind and tide. She has been drifting northeast since the accident at the rate of 10 miles an hour, and is now within sight of shore. It is stated that there are about forty people all told aboard the crippled steamer, including passengers and crew. Shortly after the accident the first officer, Capt. O'Brien, sent a boat to the rear to see if any life-boat could be procured for a four-days' cruise, but by 8 o'clock p. m. they rowed into the inlet. The officers went to the longboat office and wired for a tugboat to take the men ashore. About 10 a.m. a tugboat arrived and took the men ashore at New York. IN DURANCE VILE.

"Lord Harrington's" Lady Friend Arrested for an Unpaid Hotel Bill.

SHE WRITES OF THE GREAT SWAP SHE HAD WITH HARRINGTON.

Harrington Is Believed to Be Still in St. Louis "Incap."—Lurid Career of the Grand Opera-House Party—Doubt, Dissipation and a Smash-Up.

Brevet "Lord Harrington," the heroine of the Grand Opera-house sensation of Tuesday night last, is in durance vile at the Four Courts to-day. She is the victim of a mysterious English Lord, who was her escort and "protector," is believed to be "in-cap" in St. Louis waiting for the sudden storm causing her arrest to blow over.

The peculiar couple have created a second sensation here owing to the lady's arrest at the Lindell Hotel late yesterday afternoon on a charge of defrauding the Southern Hotel out of a board bill of \$177.

Mr. and Mrs. J. Wallace of Detroit—and following the arrest by Detectives Lawler and Howard, the couple, with the lady's captors, went in great style in their Victoria to the Four Courts. There, after a touching scene in which the lady shed buckets of tears, the gentlewoman disclosed that he had sent her money to pay off the hotel bill due at the Southern, and departed, vowing he would leave at once for Kansas City and raise the necessary funds from his uncle.

He is reported to have given the money by an employee of the Lindell Hotel, and it is thought that the scion of English nobility has given his fair companion the "Incap" box party a cold shake.

In the meantime, the lady, who gives her name as Mrs. Lawrence Algernon Kingsley of New Haven, Conn., a young widow, formerly Miss Carrie Laura Dickinson of that place, is a person of debt, and is reported to be today which promises to develop a third sensation of even larger proportions than the two preceding.

According to her, she is this morning, one result of her recent stay in St. Louis, to be paid \$25,000 damages against Wm. H. English of Indianapolis, a charge "something like breach of promise."

And all this complication arises from the statement of the girl, who was held yesterday in a private box at the Grand Opera-house last Tuesday night, at least exclusively in the Post-Dispatch of Wednesday.

A STUPID AND FARCICAL.

The occupants of the box, which was just next to the one occupied by Police Commissioner Charles H. Turner and Secretary Henry Paschal of the Police Board, were all that could be desired from the standpoint of mystery and sensationalism. One, a gentleman, was a raven-haired and Monte Cristo-like unknown, claiming kin with the English nobility; the other, the lady, was evidently a saucy adventuress of the vivacious type, playing the long-haired stranger for all he was worth and dodging her bill at the Southern in the meantime. The crate in the meantime, about through the publication of the Grand Opera-house sensation in the Post-Dispatch, which caused the proprietor of the Southern Hotel to bring matters to an issue with the Lord's nephew and his friend, the girl was arrested and remained in jail for the unpaid board bill.

Beautiful Mrs. Kingsley first reached the Southern on July 31 and stayed there in grand style without paying a cent, and was "fired" at the beginning of this week for failing to settle up. Just as this catastrophe happened, however, Alice, the girl's mother, the beloved nephew of Lord Harrington of England, reached the Southern and was smitten by young Mrs. Kingsley's charms as she sat consoling in the Southern parlors. They struck up a friendship, and the young woman was homeless, and spent one night at Hurst's and one at the St. James while first ensnaring the noble Britisher's heart. Then the "spur" of an idea that made separate existence impossible, and Harrington on Wednesday paid his bill at the Southern, took pretty Mrs. Kingsley to the Lindell, where they remained until the arrest yesterday afternoon. Since then desolation and despair have fallen upon the now famous lemming drinker of the "Incap" box party.

MRS. KINGSLY IN ENGLAND.

Fair and curly-haired "Mrs. Kingsley" had lived so well at the Southern that her board and carriage hire amounted to \$177. She told Manager Livingston to dispose of his unseasiness, that she could refer him to Wm. H. English of Indianapolis, a man of wealth, undependability, and also that her people were entirely respectable citizens of Chicago. Mr. Livingston, after having her arrested, got chief engineer on the wire to Indianapolis for an official report on the girl. This telegram the following telegram was received in reply:

INDIANAPOLIS, Ind., Aug. 26.—Police.

John Graf, colored boy, was arrested this morning on a charge of stealing a bridge from Daniel Kerwin, the ex-Police Commissioner, and chief Harrington introduced them to one another.

TRAGEDY AT CONNELLVILLE.

Mr. King, a colored boy, had

lived so well at the Southern that her board and carriage hire amounted to \$177. She told Manager Livingston to dispose of his unseasiness, that she could refer him to Wm. H. English of Indianapolis, a man of wealth, undependability, and also that her people were entirely respectable citizens of Chicago. Mr. Livingston, after having her arrested, got chief engineer on the wire to Indianapolis for an official report on the girl. This telegram the following telegram was received in reply:

INDIANAPOLIS, Ind., Aug. 26.—Police.

Mrs. Kingsley's mother lives at 18 and 28 West Hurst's, and she has never been arrested, but said that the family live at West Hurst's street as stated.

She also said, that she was a landscape painter, had come to St. Louis to establish an art school, and that funds were to have been sent to her by the members of the East.

She had known Harrington only since last Sunday, and she could not express a smile at the thought of the enamored young man's having been taken in by the Kingsley's charm.

It is going to cost the money from Kansas City to pay my bill at the Southern," she said. "All I know of him is what he told me. He says that he is the nephew of Lord Harrington, and has a residence that he owns residence in Toronto, Canada, and Germany, India and Jerusalem. He seemed to have plenty of money, and I con-

tinued to live with him because of my own financial difficulties. I am ten years old and a widow."

The girl was perfectly self-possessed while talking with the Chief, and has recovered from the shock of seeing that her arrest at the Lindell Hotel had caused such a commotion. She was confident that Harrington had gone to Kansas City, where, he stated, he had an uncle, to raise the money for her rescue.

English of Indianapolis, a man of wealth, undependability, and also that her people were entirely respectable citizens of Chicago. Mr. Livingston, after having her arrested, got chief engineer on the wire to Indianapolis for an official report on the girl. This telegram the following telegram was received in reply:

INDIANAPOLIS, Ind., Aug. 26.—Police.

Mrs. Kingsley's mother lives at 18 and 28 West Hurst's, and she has never been arrested, but said that the family live at West Hurst's street as stated.

She also said, that she was a landscape painter, had come to St. Louis to establish an art school, and that funds were to have been sent to her by the members of the East.

She had known Harrington only since last Sunday, and she could not express a smile at the thought of the enamored young man's having been taken in by the Kingsley's charm.

It is going to cost the money from Kansas City to pay my bill at the Southern," she said. "All I know of him is what he told me. He says that he is the nephew of Lord Harrington, and has a residence that he owns residence in Toronto, Canada, and Germany, India and Jerusalem. He seemed to have plenty of money, and I con-

tinued to live with him because of my own financial difficulties. I am ten years old and a widow."

The girl was perfectly self-possessed while talking with the Chief, and has recovered from the shock of seeing that her arrest at the Lindell Hotel had caused such a commotion. She was confident that Harrington had gone to Kansas City, where, he stated, he had an uncle, to raise the money for her rescue.

THE RECEIPT OF THE TELEGRAM.

NEW YORK, Aug. 26.—Walter Carr & Co.,

produce dealers at No. 15 Harrison street, assigned to-day to Robert J. Dean, receiver, for \$10,000,000, with assets at between \$7,000,000 and \$10,000,000, with assets of about the same amount. The firm had been in business three years, and did a business averaging \$2,000,000 a year.

NO RECEIVERS APPOINTED.

NEW YORK, Aug. 26.—John P. Ruth of Elkhorn, who appeared before the city court to-day, was appointed receiver for the Nevada Gas & Electric Light Co. The plant is bonded for \$100,000 and further charges are to kill upon Oct. 20th. \$12 Clark Avenue, Aug. 4, was held in the Grand Jury.

PEASANTS REVOLT.

Serious Rioting on Account of Rye Exportation at Vitebsk, Russia.

RAILROAD OFFICIALS AND GRAIN DEALERS ATTACKED BY THE MOR.

The Peasantry Also Plundered the Residences of Jewish Grain Dealers—Two Peasants Killed and Many Wounded—Condition of the American Crops—The Recent Frosts.

ST. PETERSBURG, Aug. 26.—Details of the rioting at Vitebsk, capital of the Government of that name, occasioned by the people's protest against the exportation of rye, show that the disturbance was of a serious nature. The Governor reports that there was evidence that a general revolt of the peasantry had been planned. The peasants attacked the railroad officials, claiming that no more rye should leave Vitebsk and severely beat the Jewish grain dealers, who are blamed for the whole trouble. The peasantry also plundered the residences of these grain dealers and finally combined in an attack upon the railroad station. The railroad officials sent for the assistance of the military and the latter tried to dislodge the rioters from their positions in and about the station. The rioters resisted stubbornly and their supporters outside the railroad station made a fierce attack upon the soldiers, severely injuring many of them. Finally the officer in command of the troops, after repeatedly threatening the crowds, gave the order to fire upon the rioters. The soldiers then fired a volley, killing two of the peasants and wounding a number of others. This seemed to dishearten the rioters, for they soon after dispersed. Other and somewhat similar disturbances are reported from Dunaburg, Vitebsk and other places, but no details have as yet been made public.

RUSSIA.—*For 7 days rains.*

MOSCOW, Aug. 26.—The Moscow town council is debating a proposal to compel all employers to supply their workmen with rye bread at the normal price, or about one-half of the present price. Men in the grain business say rye bread will probably sell for a high price, and those who are holding grain in order to sell it at famine prices.

CROPS UNDER WATER.

LONDON, Aug. 26.—Telegrams from all parts of England and Ireland say that the result of the continuous heavy rains is disastrous. The crops are inundated and many are still certain to be spoiled unless saved by sunshower. In several sections the potato disease has appeared.

THE STANDER.—*In discussing the grain shortage, advises the consumption of maize, saying that the United States could export 400,000 bushels of maize and that an extra million per bushel would suffice to meet the main demand needed to supply Europe with wholesome nutritious food.*

The Stander, continuing, says: "Therefore we can feel assured that there will be an abundance of grain for all the people of the world although we must be prepared to see wheat much higher."

A WHEAT POOL.

REPORTS OF A COMBINATION FORMED BY THE CHICAGO ELEVATORS.

CHICAGO, Ill., Aug. 26.—A report went the rounds yesterday to the effect that all Chicago elevators had entered into a pool the purpose of holding this year's potato crop. That the Air Line, Galena, Fulton, and St. Paul elevators, all owned by the English syndicate, have already shut down pursuant to the terms of the mutual agreement; and that as a part of the scheme the Indiana elevators had also done so. The Illinois elevators have not done a like vessels waiting for grain which the railroad people do not want to supply, and to supply the prominent elevator men were questioned on the subject all of whom, with varying degrees of emphasis, denied the story.

THE FROSTS.

REPORTS FROM POINTS IN MINNESOTA, THE DAY-KOTAS, AND MANITOBA.

KILKENNY, LEESEUR COUNTY, Minn., Aug. 26.—Frosts last Saturday and Sunday night did no damage except to some trees and damaged beans. Corn is all right and making rapidly. The weather is cool, but there are no indications of more frost.

GREEN DAMAGE.

DAUGLASS, ALEXANDRIA, Aug. 26.—The cold weather continues. Wednesday night there was a slight frost, but no damage is reported. Reports of last Friday night's frost go to show that in the town of Bell River it caused great damage to corn fields and all other kinds of garden products.

NO DAMAGE.

SLAYTON, MURRAY COUNTY, Minn., Aug. 26.—The first frosts of last Saturday and Sunday night did no damage here. There was an other frost Saturday night, but no damage was done by it.

GREEN WHEAT KILLED.

NEW ROCKWOOD, Eddy County, Minn., Aug. 26.—There seems to be no settled opinion in regard to the amount of damage done by Sunday morning's frost. All agree on at least one point, however, that the damage streaks, some parts of the country being badly damaged, while other places show comparatively little. West of here ten miles the frost was not heavy enough to kill tomato vines, but in the distance east registered 20 deg. and green wheat was entirely killed on all low grounds.

ONE PER CENT OF THE CROP.

ELLENDALE, Dickey County, N. Dak., Aug. 26.—The damage by Saturday night's frost is less to heat than at first supposed, and it is safe to say that the damage in the county appears to be less than one per cent. The statement is based upon the reports of farmers from all parts of the county, who have been sought out and questioned as to the condition of things. Flax has suffered about one per cent, corn the same, and potatoes somewhere between 5 and 10 per cent.

DAMAGE IN MANITOBA.

TORONTO, Aug. 26.—Reports from the Dominion Observatory here say that there were killing frosts in Northwestern Manitoba Wednesday night, and other reports received show that much damage was done in the very coldest parts of the region. Mr. H. H. Hobart, a man who is a Canadian Northwest were rejoicing over the prospect of having 20,000,000 bushels of wheat for export this year. Now they are in a very different frame of mind.

LATE SUMMER WHEAT DAMAGED.

HURON, Otter Tail County, Minn., Aug. 26.—From the same source as above, it is known that a late summer frost the late snow Saturday night, but five-fifths of the wheat was cut before that time.

A LIGHT FROST.

CAMBRIDGE, Isanti County, Minn., Aug. 26.—There was light frost Saturday and Sunday night, but it did not do very much damage.

NO DAMAGE.

HECTOR, Esopus County, N. Y., Aug. 26.—There was light frost Saturday night, but no damage was done to corn or flax. Wheat is turning out fully as well as expected.

Both BALMACEDA and his opponents seem to prefer claiming to winning a victory.

Giving the Forest Park "Zoo" a good start is excellent preparation for the approaching festivities.

MAJ. MCKINLEY continues to "back-cab" the late Republican Congress by denouncing the 80-cent dollar, the coinage of which it authorized.

WANAMAKER is not able to turn over a State delegation in the convention, but he can do "something equally as good" in converting postmasters into Harrison menchmen.

SECRETARY FOSTER is not a great financier but he is a versatile book-keeper, and to those inclined to make nice moral distinctions he is entitled to some fame as a confidence man.

SHERMAN and MCKINLEY were willing that a Republican administration should coin an 80 cent dollar, but the prospect of having a Democratic Administration do it gives them excruciating agony.

If the project for the improvement of Jefferson Barracks fails through the party jealousies of officials the officials will not have to stave "thunder and lightning" as the Mayor suggests. They will get plenty of it.

The census returns show that Missouri has more jockeys than any other State in the Union, and the proceedings of the Alliance Convention at Perle Springs seem likely to confirm the correctness of the figures.

The protected manufacturers are even happier than the farmers over the big crops and good prices for farm products. They know that the McKinley tariff will enable them to get the bulk of the profits on them.

LUNACY is not always a bad thing. The discussion of the sub-treasury scheme, for instance, is doing noble work in showing the utter depravity of paternal legislation. It is the reductio ad absurdum of protectionism.

The St. Louis Exposition is the only exposition which has a first-class daily newspaper issued for its patrons. The most interesting feature of the approaching Exposition season will be the Post-DISPATCH EXPOSITION ECHOES.

THE politicians are finding out that Mr. MCKINLEY is not a politician. The people discovered that he was not a statesman, when he concocted the worst tariff bill ever framed, and last November they announced their discovery by retiring him from Congress.

EX-PRESIDENT HALL of the State Alliance is in a position to realize the value of the Post-DISPATCH's warning against political combines. He is fighting for a good cause now, but the suspicion of a deal with the Jefferson City crowd is crushing him down.

have nothing but goods of American manufacture used in refitting the White House. As some woolens have been used of course the shoddy men will unite in this expression of gratitude.

A TAME SESSION.

The Farmers' Alliance Convention at Perle Springs, Mo.

U. S. HALL GIVES THE COMMITTEE ON DEMANDS FAIR WARNING.

If It Insists on the Ocalas Platform There Will Be a Fight—An Attempt to Shut Out the Newspaper Men—The Convention Not Likely to Finish Its Work This Week.

Perle Springs, Mo., Aug. 28.—To-day's session of the Farmers' and Laborers' Union of Missouri has been a quiet one. The committee on demands was expected to report this morning, but old not. It has promised to report this afternoon. U. S. Hall made a call on the Committee last night, and gave it to understand that if it insisted on the Ocalas demands, it must expect to fight. Dick Dalton will present a minority report which will also be signed by J. R. Blake. A special committee reported a recommendation to revise the Constitution, evidently in the name of so amending it as would permit the Alliance of Missouri to go into the Third party. The amendment cannot be made, as the Hall men have sixty votes, and the sub-treasury and third party people can only hope to succeed with that much opposition when a two-thirds vote is required. That the convention will endorse the Ocalas demands and send sub-treasury and third party delegates to the National Convention, which meets at Indianapolis in November, is conceded by every body accept the Radical Hall followers.

EXPRESSIVE TERMS.

The sub-treasury and the faction of the defeat of Hall and the faction of the he represents, have terms of their own to express their meaning. Unlike the city politicians, the members of the Alliance were at a loss what to do with the name of "Hall." One said, "He's a son of a b----"; another, "He's a rascal"; a third, "He's a scoundrel"; a fourth, "He's a traitor"; a fifth, "He's a scoundrel."

The farmers are pointing to sugar made cheaper by removing the duty and predicting a largely increased sale of our products in South America, Cuba and San Domingo, because of the fall of the home market for sugar.

This year they are boasting of increased imports.

The farmers will make short work with these fallacies and fables, this year as they did last year.

NO Party Profit in Party Spoils.

From the Province Journal.

If Mr. President Harrison still clings to the notion that the Republican party can be built up in the South in the shape of a resolution which was passed by the Committee on Resolutions in the fall of 1888, he may find a wholesome corrective for his delusion in comparing the figures of the recent Kentucky election with those of four years ago. In 1888, with every Federal election in the hands of the Democrats, the Republicans made a strong gain.

Last year every protectionist declared that a higher tariff was necessary in order to prevent the "flogging of the home market with foreign goods."

This year they are boasting of increased imports.

The farmers will make short work with these fallacies and fables, this year as they did last year.

HALL WILL REPLY TO NIGHT.

The question of railroad taxation was brought before the delegates in the shape of a resolution which was passed by the Committee on Resolutions in the fall of 1888.

In 1888, with every Federal election in the hands of the Democrats, the Republicans made a strong gain.

Now they are boasting of increased imports.

The farmers will make short work with these fallacies and fables, this year as they did last year.

HALL AND HIS FOLLOWERS WILL PROBABLY BREAK WITH THE ALLIANCE.

Tonight Hall will give a lecture in the convention hall, and promises to be an interesting affair.

Hall did not want to lecture, but at the request of his followers he consented to mount the platform and explain what he had opened to the sub-treasury committee. The sub-treasury contingent have been doing all the public talk since the convention opened. Their first speaker was Mr. W. C. Cobb, of Louisville, Ky., who is a member of the National Committee and the next following Miss Lavina Roberts of Pike County, Ill., one of the lecturers of the Tabernacle wing of the Illinois Alliance.

EDWARD BELLAMY is the descendant of six generations of clergymen.

OSCAR WILDE has a weakness for white kid gloves and Turkish cigarettes.

SENATOR KIRKLAND is said to be strikingly like the late Gen. Logan in personal appearance.

At the ripe age of 81 Senator Morris F. Benton plays skittles and gun in hand rooms for small game.

THE negro's mental processes are largely reminiscent, a fact which makes him an easy victim to paternal demagogues who demand gratitude in the shape of votes in exchange for actual help in the past and promises of help

TEXAS RAIN TESTS.

The Dyrenforth Experimenters Satisfied With Results.

ADVERSE CONDITIONS AGAINST WHICH THEY HAD TO CONTEND.

The Feasibility of the Plan Fairly Demonstrated—Description of the Operations on Tuesday Last—The Party on the Way to Washington—Rainmaking in New Mexico and Wyoming.

HOLDEN'S BAD HUMOR.

It Causes Trouble at the Lick Observatory—His St. Louis Career.

SAN FRANCISCO, Cal., Aug. 26.—The members of the Dyrenforth rain-making experiments on the way to Washington passed through this city last evening. In conversation they all expressed themselves well satisfied with the results of their efforts. Speaking of the last experiment Prof. Myer, the aeronaut, said that the winds, which sweep over the arid plains of Texas, interfered greatly with the operation of the gas balloons. The force of the gale on the balloons was very great, and in several cases it has torn the captive balloons from their fastenings. Once during the progress of the experiment they were completely broken. Shelters had been built both for the balloons and for the oxygen furnace. The oxygen apparatus used was probably the largest ever constructed and manufactures the gas on a scale never before attempted. The wind and the seclusion of the ranch from supplies has also made this work exceedingly difficult.

No such difficulties were encountered in the explosions of the ground, however, and these were carried on with entire success, over half a ton of "rackarack" powder and dynamite being exploded in a single day.

Balloons were also fired from kites. The balloons were made over a space of several square miles. For three weeks an intermittent series of experiments have been carried on, and not in a single instance has rain failed to fall within ten or twelve hours after the operations.

The party reached the ranch house in the evening and was personally welcomed by Mr. Carpenter, and in regard to his cousin's wife, who had come to her mother over the water, he first approached her on the subject. He had received a letter from his wife, telling him that she was ill, and he was anxious to see her again. It was through no fault of his that he deserted his wife and five children, leaving the inferior good Christian, leaving the inferior wife was not up to his standard of living. It was his wife's own conclusion to have the admonition: "Be not unequal yoked."
